ANSWER KEY	89
------------	----

Introduction

This Test Bank was developed to accompany *Basic English Grammar, Second Edition*. For each chapter, there are short quizzes of 5 to 15 items for a related group of grammatical points. The quizzes are designed to be completed in approximately ten minutes, permitting the teacher to use the quizzes to do quick checks of student understanding and to use what has been taught. Each chapter ends with a comprehensive chapter test. The formats of the questions in the chapter tests follow those used in previous quizzes. In this way, students are prepared for the format of the chapter test as well as for its content. Also included are a midterm exam and a final exam that can be used in conjunction with the other tests and quizzes or separately.

The quizzes, tests, and exams are already formatted for easy duplication. Each set of items is accompanied by specific directions. Permission is granted to duplicate as many copies as needed for the classroom use only.

Great care has been taken to provide valid and appropriate items in all tests and quizzes. Students will encounter a wide variety of test formats, from closed formats such as multiple choice and matching, to more open formats such as sentence writing and completion and error identification. The answer key provides definitive answers where possible and examples of acceptable answers where a variety of responses is possible.

CHAPTER 1

Using *Be* and *Have*

■ Quiz 1: Singular and plural nouns; A and AN; BE verbs.

Complete the sentences. Use **is** or **are** and a singular or plural form of the nouns in the list.
